PREFACE

This atlas has been produced in the hope that it may be of use to genealogists, local historians and record searchers in general.

To the genealogist in particular a knowledge of local topography is very essential, and at present no maps are available to the average enquirer which show the boundaries of the ancient parishes and also those of the townships and other minor divisions. Many parishes have outlying townships, some townships are in more than one parish, and in one case belong to a parish in an adjacent county—all of which is very confusing.

The scheme is based mainly on the information to be found in the extremely valuable Victoria County History, and the small sketch maps scattered through six of the volumes led to the idea for this work, which, while being on a much larger scale and giving more detail, is brought together in a more compact form.

The introduction of lists of parish registers to be used in conjunction with the maps is an innovation which ought to commend itself, and the additional lists of various non-parochial registers give information of which little has hitherto been known.

The compiler wishes to acknowledge the very valuable assistance which he has received from Mr. JOHN BROWNBILL, M.A., joint editor of the Victoria County History.

J. P. SMITH,
Arndene, Barrow-in-Furness.

The official list of "Non-Parochial" registers is very lengthy, and contains detailed lists of all the volumes from each chapel and the periods covered by each volume. The list given above is only a summary giving the earliest date for each chapel, and only includes those commencing in or before 1812, as in the case of all other registers quoted in this work.

SOCIETY OF FRIENDS

	Earliest Entry.
Lancashire Quarterly Meeting	1644

MONTHLY MEETINGS:

Lancaster (four series)		1640
Preston—formerly Fylde (two series)		1699
Preston		1627
Hardshaw East	Manchester	1655
	Sankey	1649
	Penketh	1698
Hardshaw West, including Liverpool	Manchester	1649
	Hardshaw	1776
Marsden, including Todmorden (two series)		1654
Swarthmoor	Swarthmoor	1646
	Hawkshead	1652
	Cartmel	1646
Langdale (four series)		1646

The above is only a brief summary from the official list at Somerset House, which is rather confusing and overlapping, but most of the registers contain births, marriages and deaths, and are well worth a search by those interested.

The compiler wishes to call the attention of all genealogists to a most important work which is now being prepared by the "Society of Genealogists," viz., an Index to all the marriages in Lancashire which are to be found in the parochial registers, from the earliest date up to 1837. The transcripts of all the churches north of the Ribble is now practically completed and good progress is being made with the southern part of the county.
